

## Temple Beth Shalom • 2018 - 2019 Nursery School Information Update

**We are excited to announce changes to our Nursery School's schedule and programming that will allow for new and flexible options in supporting your family. You have shared your requests with us, and in response we have initiated great plans for next year. No matter what hours your family chooses, our core philosophy extends throughout the day offering creative, developmental and child-based programming from beginning to end, both indoors and out.**

**Please note that for the morning session, all of our classes will now dismiss at 12:00 pm.**

Closely aligning with local school district calendars, tuition has been modestly pro-rated to include June at a cost similar to that of Geshet, which programmatically will now be subsumed within our Daily Class schedule that extends to June 26, 2019. All of our fees and before and after school registration information will be sent to you soon.

When enrollment began last November, school was originally scheduled to end on June 7, 2019-- please let us know if you would still prefer to end school then.
